IV. New Business
   a. Certificate of Appropriateness for 1110 North Sheridan
      i. Blanton: Would prefer the front door and window sashes be replaced with wood – similar to the original construction. However, she would not deny the petition based on vinyl doors and sash. She would deny the petition to paint the brick because further discussion is needed about a more appropriate brick treatment.
      ii. Woodrum: In addition to being opposed to the painting of the brick, she would also like to learn what is beneath the plywood on the back of the home above the deck.
      iii. Allen: Stated that she saw that some work has begun to take place
      iv. Woodrum: Recommends denial of the certificate of appropriateness based on the treatment of the brick and the need to discuss what is underneath the plywood in the back of the home.
