#6-B. Board/Committee Appointments
#6-B-1) Appoint James Simon as Corporation Counsel (effective 02/24/21)
   Mayor Williams asked for concurrence for the appointment of Mr. James Simon as Corporation Counsel, effective February 24, 2021. Alderman Puhr moved to concur, seconded by Alderman Pickering. Mayor Williams stated he is very honored and proud to present this appointment for consideration. Mr. Simon will be coming to us from Urbana and he will be moving to Danville within his probationary period. There being no questions or further discussion, on the voice vote, all ayes, no nays; the motion so ordered.
   Mayor Williams asked Mr. Simon to introduce himself and offered him the opportunity to speak about his experience. Counsel Simon stated he looks forward to representing the City of Danville. He has served as the City Attorney with the City of Urbana for over eight years. He has handled a diverse
area of matters and anticipates doing the same with the City. He promised Mayor Williams and all who interviewed him, to be candid with integrity and following his code of professional ethics. Everyone may not always like the advice and recommendations he makes, but they will be made pursuant to the law. In addition, he will also ask if there is some other approach we could look at to resolve a problem, because he does not view the law as an end, but as a means to resolving problems. Prior to coming to Urbana, he has had 35 years of private practice in diverse transactional matters, many of which were quite complex. He was also in litigation through State and Federal court with complexity and cases that have involved risk exposure with his clients of well over a billion dollars so he has high level transactional and litigation experience. Some of the matters he handled for the City of Urbana involved significant risk in the millions of dollars. He attended DePaul University College of Law where he graduated Magna Cum Laude and was second in his class. He was both a day and night student and was the first night student finishing in the top two of the class. He graduated from the U of I in Industrial & Systems Design, a program involving problem solving, so he considers himself a problem solver and uses the law to assist in that. He looks forward to working with everyone at the City of Danville.

#11-A…RESOLUTION NO. 2021-17 Awarding Bid #665 to McDowell Builders, Inc. for Exterior Renovations for Danville Stadium, in the amount of $295,100.00, with the work to be paid for from Capital Improvements Budget line item 302-302-00-55013; and
#11-B…RESOLUTION NO. 2021-18 Authorizing Budget Amendment to Fiscal Year 2020-2021 and Fiscal Year 2021-2022 Capital Improvement Budget (302) in order for renovations to the Danville Stadium facility start as early as possible to be completed prior to the onset of the summer baseball season and funds for the project were originally budgeted for FY 2021-2022. The Fiscal Year 2020-2021 Annual Budget to be amended to increase line item: 302-302-00-55013 by $300,000.00 and the Fiscal Year 2021-2022 Annual Budget to be amended to decrease line item: 302-302-00-55013 by $300,000.00 with funds for the budget amendment to come from the Capital Improvement Reserves.

Director Carpenter explained the work involves replacing all exterior wood on both cap ends and around the three sides. The proposals were taken in different stages with the lowest bidder of the four bids received being a local contractor. The City has dealt with the lowest bidder on other projects and has been happy with them. Wood will be replaced in addition with a cement fiber board type material and substrate behind it so if something impacts it, it will not go thru it or poke a hole in it. The product should last roughly 35 years or so and will be painted a forest green color. All four bidders stated it would take them anywhere between eight to twelve weeks to complete the project and in order to get the project completed before baseball season, the project needs to begin sometime in March.

Director Carpenter stated this year is the 75th anniversary for Danville Stadium and there will be a Jackie Robinson night at the stadium in June, because Jackie actually played at Danville Stadium before he became a major league player. The funding for the project was set aside for next fiscal year under the assumption the project would only take a month to complete, but due to the project needing an eight to twelve week timeline, there is a need for a budget amendment. Vice Mayor Iverson asked if the stadium will retain the historic look after the renovations and Director Carpenter responded yes, the materials will run vertically and look like the stadium is today. #11-K... Items of Information
Director Carpenter provided an update on the snow removal from the most recent snow event. The staff received many calls today and some of the residents are under the misconception that the City will come back by and clean the snow from the windrows when snow is left at the end of the driveways after snowplows have cleared snow from the streets. Another concern is the snow in the alleyways. The City has not plowed snow in the alleyways since 2006 or 2007 when the garbage trucks no longer used the alleys. The only exception where the City plows snow in the alleys is on Grant Street as the garbage trucks are too heavy for the brick streets on Grant so they pick up solid waste in the alleys. The City also has a special needs list of individuals that might be on dialysis or children who need special care that if an ambulance is needed in an emergency. Those roads get opened up before anything else is opened up. Sometimes citizens might question why some of these areas are opened up before theirs. He also reported the staff started plowing late Sunday evening into today for a total of roughly 36 hours non-stop. Employees cannot work more than 18-hour shifts, but there were people who came in at 1:00 a.m. today and did not leave until 3:30 p.m. this afternoon. Public Works made it through most of the event without any real issues, but we lost one of the large plows due to a hydraulic leak and lost some oil and when we went to lift the plow going over railroad tracks it did not lift and lodged itself in the tracks and cracked the frame. Unfortunately that is the second large plows the City has lost in the last two years, so those will need to be replaced in the future. The plows cost a little over $13,000.00 each and these are the two biggest plows we had that run the longest arterial stretches in the City. He feels the replacement will not occur in the current fiscal year.

[The next Public Works Committee meeting will take place by videoconference on Tuesday, March 9, 2021 at 6:00 p.m.]

#12... PUBLIC SERVICES COMMITTEE REPORT
#12-A...Chairman McMahon presented RESOLUTION NO. 2021-25 Authorizing Budget Amendment to Fiscal Year 2020-2021 Budget and Authorizing Early Payoff of IMRF Early Retirement Incentive (ERI) as the City adopted an early retirement incentive with ORDINANCE 8930, the City elected to amortize the cost of the early retirement incentive over eight (8) years at an annual interest rate of 7.5% and executing early payoff could result in significant savings; a budget amendment is required to increase the IMRF-ERI payment line item to execute the final payment in FY 20-21 and if early payoff is approved by City Council there is no reason to budget for an ERI payment in FY 21-22. The Fiscal Year 2020-2021 Annual Budget shall be amended as follows: Increase Line Item: 001-015-00-51011 IMRF ERI Payment in the amount of $53,192.21 and Decrease Line Item: 001-015-00-54070 Sales Tax Incentive in the amount of ($53,192.21) with funds for the budget amendment to come from a line item transfer from 001-015-00-54070. The Fiscal Year 2021-2022 Annual Budget shall be amended to decrease Line Item: 001-015-00-51011, IMRF-ERI Payment by ($100,000.00) and the Comptroller is authorized to remit payment up to the amount of $326,290.70 to IMRF, moved to dispense with the reading and asked for approval, seconded by Alderman Brown. Comptroller Massey explained in 2015 the ERI could have been paid off in a lump sum or amortize at an interest rate of 7.5% annually and the decision was made to amortize over eight years. Comptroller Massey stated the City has the financial resources to pay it off this year if a line item transfer is done. Mayor Williams questioned savings for the City with the early payoff and Comptroller Massey responded she is waiting on IMRF to give her an updated amortization table, because how it works is if we do not make early payments, it is part of our IMRF contribution rate, which is a percentage of payroll.

#14...ITEMS OF INFORMATION
#14-A-1) COVID-19 Update and Discussion on Pandemic
Mayor Williams reported all regions in the State are in Stage 4 so that means everything can be open and most things are at 50% capacity. The Danville area is continuing with vaccinations. Vermilion County Health Department and our partners, Carle and OSF, and now Walgreens and some of the other pharmacies are starting to help out too, but we have one major problem. The state is not going to be sending as much of the vaccine. The health department will be finishing up the first round of vaccinations that they already have scheduled and then doing the second vaccinations they already have in the works as well. He was very frustrated when other counties were getting preferential treatment over us, but he learned something that helped him understand it. One of the big issues we have in Vermilion County is that we do not have the freezers that are cold enough to hold the Pfizer vaccine, so that means we can only get the Moderna vaccine. There is a limited supply of that vaccine. He plans to have conversations with Chairman Baughn and the health department in hopes to see if there is a way to work together to procure freezers to be able to allow us to store that vaccine so we have a way to vaccinate as many of our people as possible. Alderman Puhr suggested checking with MSI Foods to see if their freezers could be used. Alderman Puhr stated the Valley of Danville Masonic Temple has agreed to open up that facility for vaccinations when they become available.
