

### A Word To Our Customers....

Here at the Solid Waste Division of Danville Public Works our top priority is customer service. To us, that means we pick up all residential solid waste 4 days a week.

That's an average of:

- 10,700 stops per week
- 44,940 stops per month
- 556,400 stops per year

The cost to our residents for this service is one of the lowest monthly charges in Central Illinois, municipal or private.

The remainder of your solid waste fee supports the City's yard waste collection and recycling of over 1400 tons of material, the demolition program, the street sweeping of approximately 190 miles, and the solid waste capital equipment program.

Thank you for your assistance and cooperation in keeping Danville clean.

Additional toters can be purchased by calling 431-2288 or 431-2200 and will be delivered.
